What to know about My Choice®

If you are thinking of using My Choice, you want to know how it works. Let's start with the facts.

What My Choice Is

My Choice® is emergency contraception you take within 72 hours after unprotected sex .

- Helps prevent pregnancy before it starts
- No ID, no Rx required to purchase
- Won't hurt your chances of getting pregnant in the future

What My Choice Isn't

A few things to keep in mind when you're considering taking My Choice.

- It is not an abortion pill
- It won't affect an existing pregnancy
- It is not mean to be used as a regular birth control method

The sooner you take it, the better it works

My Choice® is emergency contraception you take when:

- You did not use any birth control method
- Your regular birth control was used incorrectly or failed
- You missed a dose of your regular birth control pill and had sex

Find it in the family planning aisle

Need a backup plan? We've got you covered, No ID, no Rx required to purchase. My Choice is available in major retailers.

My Choice is manufactured by SUN Pharma the 4th largest Pharmaceutical company in the world.
